- Service Installation
- Outlet Installation
- Indoor Lighting Installation
- Wiring Services
- Docks
- Smoke & CO Detectors
- Ceiling & Attic Fan Installation
- Whole House & Portable Generator Installs
- ...and more!

About Beattie Home Services

Since founding Beattie Development Corporation in January of 2009, Paul Beattie established his company as one of the premier home building and remodeling companies in the Cape Coral area.

The Bergau family established a family owned and operated plumbing business in 1973, serving Lee County. During those five decades, they developed a reputation for quality work at reasonable prices.

When Bergau Plumbing merged with Beattie Development Corporation in 2019, it brought together two trusted names in home services, building and remodeling in Southwest Florida.

Now, the scope of work being offered has been expanded to include residential and commercial electrical work, as well as heating & air conditioning. The name to remember when you need any home services is **Beattie Home Services**. Whether it's the Bergau Plumbing Division, the Electrical Division or the Air Conditioning & Heating Division, consider Beattie Home Services the one company to call when you want it done right!

Simply put, it's *Better with Beattie!*
